ORDER YOUR VIOLETS FROM

The introducers of "Mrs. David Lloyd George"
and the only Violet Plant Specialists in the country.

RHINEBECK FLORAL COMPANY

DOUBLE FRAGRANT VIOLETS

MARIE LOUISE

This is undoubtedly the Violet par-excellence of all the double varieties because of its fragrance, strong growth, productiveness, keeping qualities, and hardiness. It has a fine dark mauve color and the leaves are a rich glossy green. The flowers of this variety are raised by the million in Rhinebeck.

FARQUHAR

A selected type of Marie Louise with slightly larger flowers and a tendency to bloom a little earlier.

MRS. J. J. KETTLE

A new introduction with exceptionally large double light mauve flowers. A strong Louise type grower.

LADY HUME CAMPBELL

A free flowering double Violet with long stems and light mauve blooms. A vigorous grower, but seemingly quite disease resistant.

JAMIE HIGGINS

Pale mauve flowers made distinctive by the streaks of red at the base of the petals. A compact grower. A new but not strongly recommended sort.

SWANLEY WHITE

The best and only pure white Violet. Gives large double flowers, especially when warmed by the spring sunshine. It is not an easy doer and seems to have an off and on year. Growth is small and compact without many runners.

RUSSIAN DOUBLE

This is a variety much sought after because of its extreme hardiness under all conditions. Dark mauve flowers of fair size. Stock is limited because of its poor propagating nature.

PRINCESS MARY

This is the finest of all new Violets and has received the R. H. S. Medal in England, where it originated. It is a "double-single" of remarkably deep color and otherwise having all the free flowering and good growing habits of Mrs. David Lloyd George. We have considerable stock which we imported in 1926 and expect to start dissemination in 1929. Watch for announcements.

"MRS. DAVID LLOYD GEORGE"

Right above-Actual size of blooms.

SINGLE FRAGRANT VIOLETS

MRS. DAVID LLOYD GEORGE

A new single Violet with Princess of Wales parentage. Very large fragrant flowers on long stems, the flower being distinguished by its multi-colored center. Many gold and silver medals awarded to this variety attest its standing as the best single Violet of today. (See picture above)

PRINCESS OF WALES

Until the advent of Mrs. David Lloyd George this was easily the most popular single Violet. Has long stems, good foliage and the true Violet color. (See picture on Page 4)

FREY'S FRAGRANT

A variety with a very compact habit of growth, rich glossy leaves and flowers of deep purple on medium length stems. It seems to belie its name, house with other flowers, as it stands more heat of "Fragrant," but is a good sort to grow in a

GOVERNOR HERRICK

A well known prolific blooming variety of Violet with very vigorous growth which makes it somewhat too large. Fairly fragrant. Recommended

RUSSIAN SINGLE

Very hardy and free flowering. Flowers of fairly good size and medium Violet in color. Recommended for planting in rockeries, etc.

CALIFORNIA

Very rank growing type with long stems, light colored flowers and foliage. The single flowers are of good size and are borne profusely. A variety best adapted to culture in the state from which it gets its name.

THE CZAR

There are also in cultivation many varieties of hardy fragrant Violets bearing this and other names,

VIOLA, JERSEY GEM

The one Viola that stands our hot dry summers. Flowers of finest royal purple. From 2 1/2" pots at 1.75 doz.

This picture shows actual size blooms and foliage of the old favorite Violet

"Princess of Wales"

1928
